# ABOUT US AT WE FIT

We Fit Windows, Doors & Conservatories LTD, specialise in manufacturing a range of high-quality home improvement products. Established in 2014, we have built a reputation for excellence, providing a wide range of products including LEKA Roofs Systems, Eurocell Pinnacle roofs, Eurocell Sky Pods, LEKA Carports, LEKA Xi Garden Offices/ Extension Buildings and more.

We take great pride in our ability to manufacture over 30 roofs per week, we are also proud to offer our clients thermally efficient Garden Offices/Buildings, which are designed to provide a comfortable and efficient workspace.

At We Fit Windows, Doors & Conservatories LTD, we understand the importance of quality and customer satisfaction. We work closely with our clients to understand their needs and provide them with the best solution for their home improvement needs. Our team of experts is dedicated to delivering top-notch service, from the manufacturing process to delivery and installation.

We are pleased to cover the whole of the UK for deliveries, providing short lead times to ensure our clients receive their products in a timely manner. We take pride in our commitment to quality, and our products are built to the highest standards.

We understand that every client has unique needs and preferences, which is why we offer a wide range of products to suit different requirements. Whether you are looking to replace your existing roof, add a skylight, install a Garden Office/Building, or create an outdoor living space, we have got you covered.

Thank you for considering We Fit Windows, Doors & Conservatories LTD for your home improvement needs. We look forward to serving you and helping you achieve your goals.

OR SUPPLY YOUR OWN

**CHOICE OF TILES**  
SLATE OR SHINGLE

# EUROCELL PINNACLE ROOF

## CREATES AN ADVANCED CONSERVATORY ROOF SYSTEM

### ROOF GLAZING

- Roof pitches between 2.5-45° in 24mm glass or 25/32mm polycarbonate.
- Patented ridge end sealing assembly reduces the risk of water ingress and overcomes the need for silicone sealing.
- Incorporates glass retention system as standard on every roof design.
- The ridge top cap can be fitted and lead work complete before glazing, making it quicker and easier for installers to obtain water tight installations.
- Aesthetically designed, maintenance-free aluminium and PVC-U ridge cresting and finials available.
- Fully foiled ridge top capping for all woodgrain installations.

### GLAZING BARS

- A built-in rafter gutter system is supplied as standard, for neat and leak-free lead flashing back against house walls.
- Jack rafter locations allow four-way adjustment on-site to ensure neat connections.
- Simple, neat clip-up-and-over rafter end caps are great for box gutters or where access is limited.

### BOX GUTTERS

- High strength standard box gutters never require additional internal strapping – even for glass.
- Silicone-free box gutter adaptors make for easy leak-free all weather installation.
- Box gutters are cut square to the external face of the frames below, rather than mitred over them – minimising any risk of internal leakage.

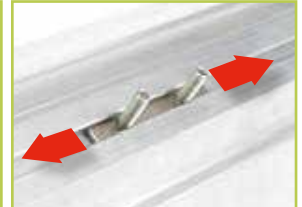

### GUTTERING

- Ogee guttering sits clear in front of eaves beam – reducing any risk of overflow leaks.

### KEY FEATURES

BOX SECTION EAVES BEAM  
ALLOWS GLAZING PITCHES  
BETWEEN 2.5-45°

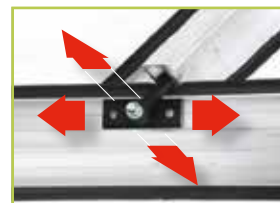

EASY SLIDE FIXING

# ADDITIONAL PRODUCT OPTIONS

## LEKA SKYLIGHT

Fixed glass units can be bespoke in size and provide flexibility when designing your Leka Warm Roof.

A modern finished purpose built glass housing system, compliments the Leka Skylight range.

## MODERN TIE WIRE

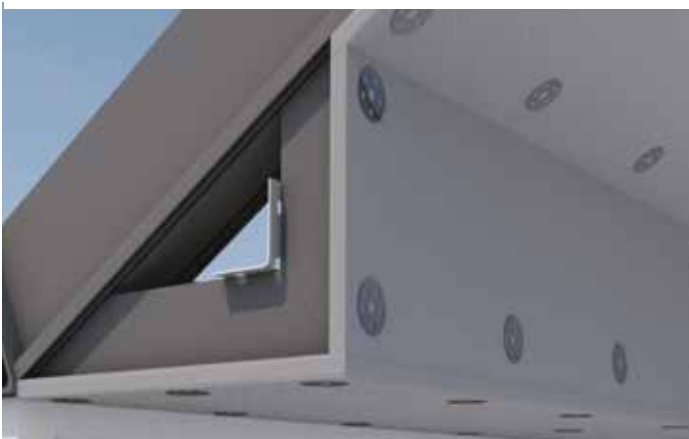

Supplied with a chrome finish, and chrome plates a Tie wire is an alternative option to the Leka Tie Bar solution.

This offers flexibility and diversity whilst looking modern and refreshing.

## ROOF VENTS

Roof vents are an optional extra that can add light and ventilation.

A choice of preferred brand is available on request.

## LEKA INTERNAL LIGHTING PELMET

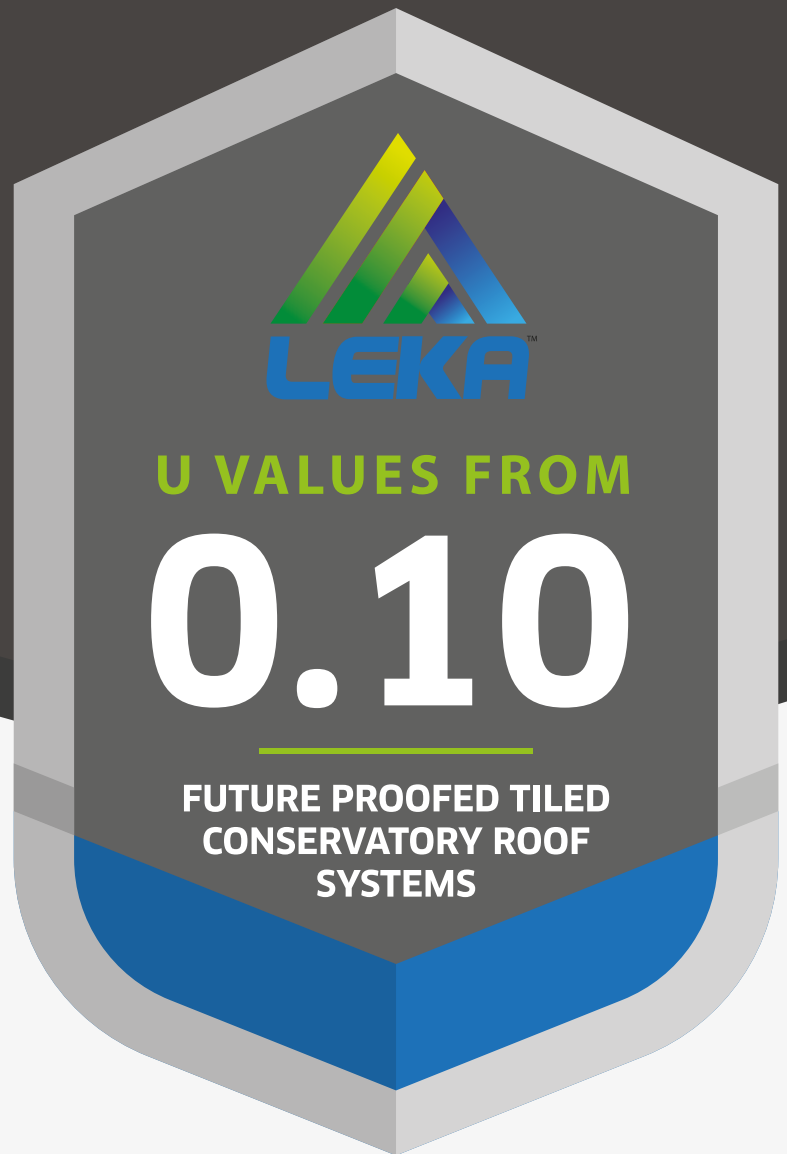

Adding an internal lighting pelmet can really provide the finishing touch to any warm roof conservatory.

Bespoke pelmet depths are available on request.
